Distinctive branding

Signaling the value of news across all surfaces

Beyond core platforms

Unique typography and illustration can carry the identity of news stories as they move downstream and off platform:

- Social media
- Podcast players
- Apple News

Product collaboration

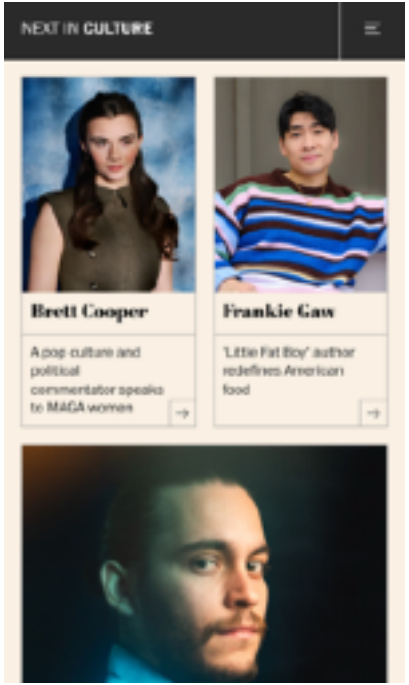

Creating original artwork and logos helped teams outside the newsroom with branding. Sharing color palettes, typography and design systems was key to success.

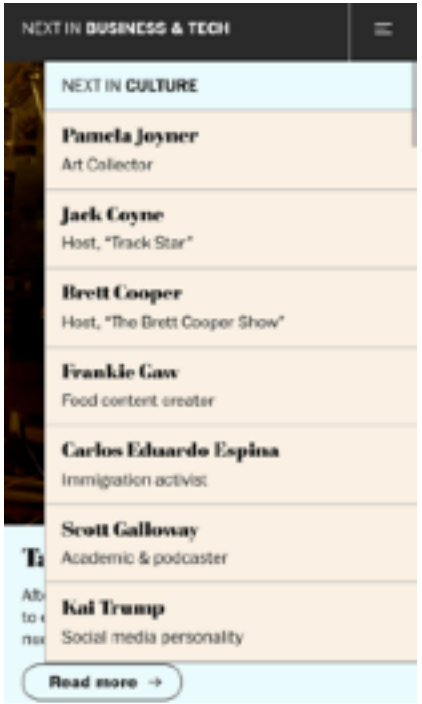

- Horoscopes, newsletter thumbnail promos
- In-house games
- Sub-branded verticals
- Elections and Olympics
